Tags show strong regional content: French shows (Les Anges, Les Marseillais), Punjabi songs, and Tamil serials.

Other common tags are movies (Infinity War, Black Panther, Star Wars), sports (NBA, LeBron James, Super Bowl), and late-night hosts.

"donald trump", "talk show", "punjabi song", "music video", and "Real Madrid" are among the biggest words, so they appear most in tags.

💖 Thanks

Focus on high-volume categories like Entertainment and Music, since they have the most trending records.

Publish on weekdays, especially before Friday, when trending activity peaks.

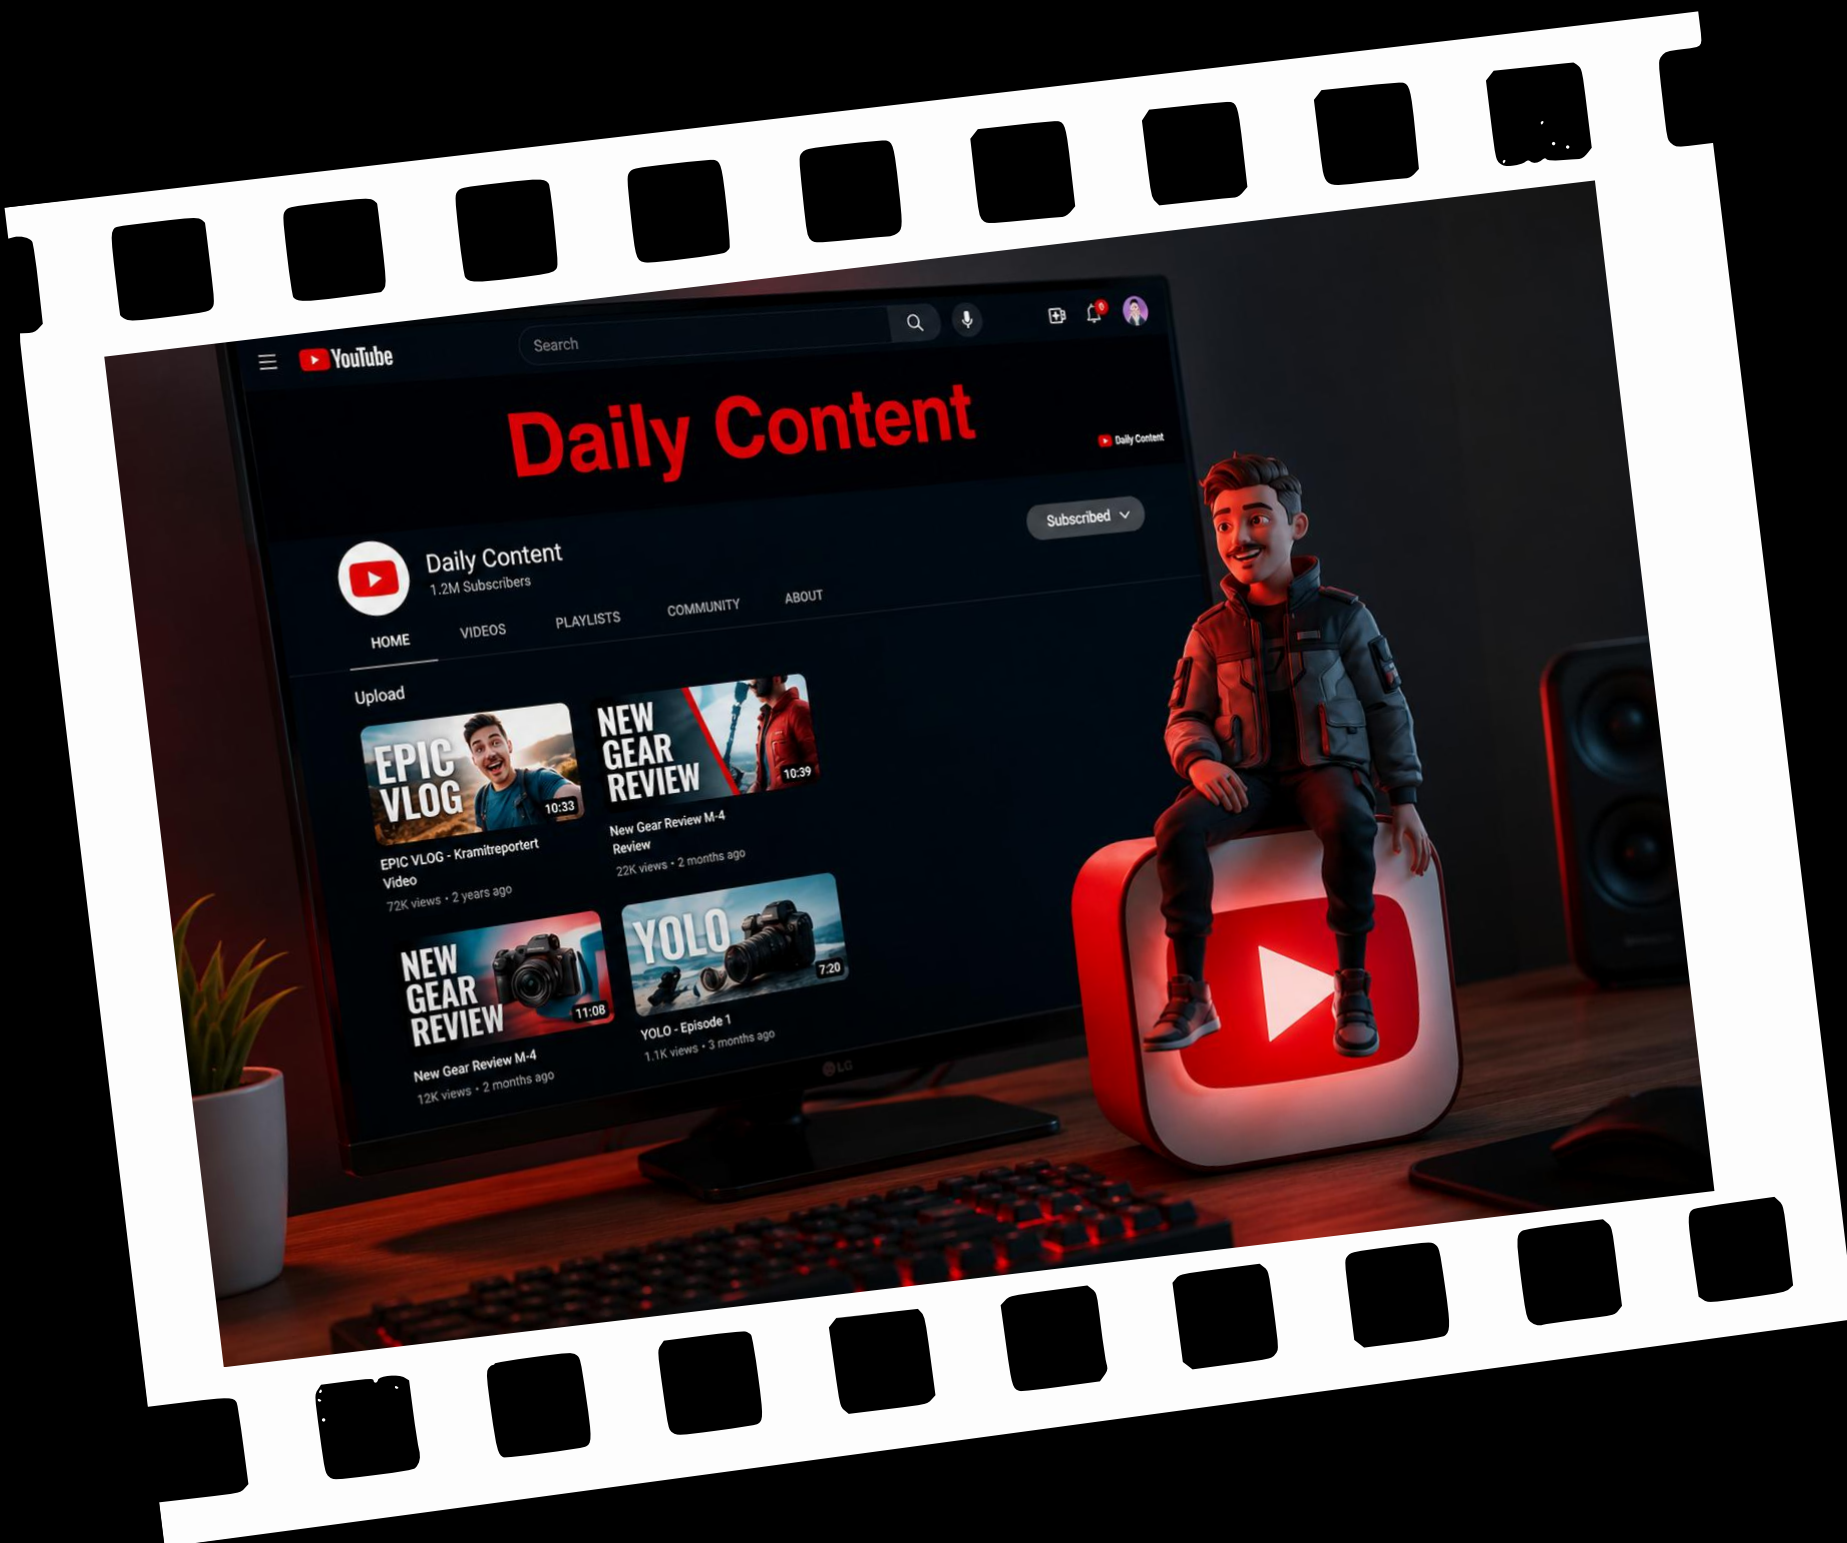

Encourage likes and comments, since they are strongly related to views.

Use popular topics and keywords from trending tags.

Videos usually trend on day 1, but later trending is still possible, so keep promoting.

Thank you
for listening!
